

SUMMARY

Enterprising software engineering professional with **3 years** of experience, highly skilled in designing, implementing, and installing software solutions as well as developing high-quality software designs & architecture. Adept at developing various tools & applications by producing clean & efficient code, conducting systems analysis to improve operations, and automating tasks through appropriate tools & scripting.

KEY SKILLS

- **Web Application Development • Backend Development • Frontend Development • Build and Code Deployment**
- **Unit Testing • Debugging**
- **Coding & Troubleshooting • Team Management**

TECHNICAL SKILLS

- **Programming languages:** Java, Javascript, NodeJS
- **Web Technologies:** Rest, ReactJS, Angular 2+
- **Data Management:** MySQL, MongoDB, CosmosDB
- **Platforms:** Unix, MS Windows, Linux

CERTIFICATIONS

- **React** | Udemy | Dec '20
- **Angular** | Udemy | Nov '19
- **Deep Learning and Neural Networks** | Coursera | Jun'21

MENTOR EXPERIENCE

- Worked with **Newton School** and **Verzeo Inc** for training students/professionals on React.

ADDITIONAL INFORMATION

- **Languages:** Hindi, English
- **Interests:** Reading, Teaching and Sports

PROFESSIONAL EXPERIENCE

Specialist Programmer

Feb '20 - Present

Infosys Ltd

Bengaluru, IN

Application Development & Design

- Gained hands-on experience in designing, developing, and implementing **web applications** for the clients.
- Designed and Implemented UI Layer, Controller Layer and Service Layer as per the client requirements and **business Logic**.
- Worked on the Optimization of Code, complex Database Queries making the applications extremely efficient and stable in terms of **performance**.
- Assisted the team with the **design**, development, **unit testing** and implementation of the **user stories** on a sprint basis.

Software Engineer

Jun '18 - Feb '20

Mindtree Ltd

Bengaluru, IN

- Develop **Web portals** and mobile apps related to Finance, Retail and airline industry.
- Hands on experience on front end technologies like **ANGULAR** and **REACT**.
- Experience in creating self-contained, reusable and testable **modules** and **components**.
- Involved in developing applications from scratch and working as per the **agile/Scrum methodology**.
- Giving application demos and **KT** to Client Team at every sprint end.

Software Intern

Oct '17 - Jun '18

Celebal Technologies

Jaipur, IN

- Worked on the **AI Technologies** like Chatbots, Virtual Agents and Machine Learning and RPA tools like UIPATH and WORKFUSION.

KEY PROJECTS

- **MARS Inc Agnostic Portal | Technology: React 16, Node JS, Cosmos DB**
 - A Agnostic Hold and Release solution for **MARS Inc** factory admins to create and release holds on their products.
 - Designed the **basic architecture** of the Web Portal. Developed features for the application and improved the **performance** of the application by implementing parallel execution of the **database queries** from NodeJS.
 - Utilized **Azure Cognitive Search** to create a new search to get large set of results within a short time.
- **Franklin Templeton Investments | Technology: Angular 6, Java**
 - A **Mutual fund Web Portal** for Financial advisors and shareholders to check their portfolios.
 - Developed reusable Modules and components. Completed the **user stories** and tasks as per the deadlines.
 - Implemented **Unit Testing** of code. Followed the best coding practices as per the client requirements.

EDUCATION

B.Tech. in Computer Science

Jul '14 - Jun '18

Jaipur Engineering College and Research Centre

Jaipur, IN
